

Tecate Group UN3499 Shipping Policy for Ultracapacitor Cells and Modules

Tecate Group's ultracapacitor cells and modules are not classified as dangerous goods. All ultracapacitor cells and modules presently sold by Tecate Group are less than 10Wh capacity and, when transported as either individual cells or modules, comply with all UN3499 shipping regulations (including Special Provision 361 and 186) as effective January 1, 2013.

By meeting these requirements, Tecate Group's ultracapacitor cells and modules become eligible to be transported without DG/HZM restrictions as detailed by UN3499.
